Ex Parte Quayle

1. This application is in condition for allowance except for the following formal matters:

(a) The title of invention is not descriptive. The examiner suggests, "Resynchronization Method and Apparatus Based on Intrinsic Atrial Rate."

(b) The abstract is objected to as not being descriptive of the claimed invention.

(c) The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the specific varying, extracting and setting steps (see claim 33) and corresponding apparatus involved, must be shown or the feature(s) canceled from the claim(s). The various species involving the type of resynchronization pacing parameter and the type of feature extracted from the electrogram signal must also be shown. Correction of the specification to account for any new drawings is also required. No new matter should be entered.

Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

(d) The status of the 09/995,255 application referenced on page 1 of the present specification must be updated to reflect its current status.

(e) The word "on" should be inserted after the word "based" on line 5 of claim 33 and line 7 of claim 43 in order to correct for a minor grammatical error.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
